To: CHAIRMAN Resource
Subject: Need for at least a partial transcript

Sir:

I note that the following ACRS subcommittee meeting was entirely closed.

02/06/2008 Future Plant Designs (Closed)

Why was that? What is going on?

What are the issues? Did GE, AREVA or others present secret stuff? Or are there proposed arrangements to cope with sabotage and terrorism; arrangements that are not in place with our current operating nuclear power plants?

Subject: Closed ACRS Subcommittee Meeting - February 6, 2008

Mr. Leyse,

This is a response to your March 27, 2008 email regarding the closed ACRS Subcommittee meeting on February 6, 2008. This meeting of the Future Plant Designs Subcommittee was closed to prevent the premature disclosure of information which would be likely to significantly frustrate implementation of a proposed agency action per 5 U.S.C. 552b (c) (9) (B). The ACRS subcommittee heard from representatives of the Nuclear Regulatory Commission and Department of Energy regarding the proposed licensing strategy for the Next Generation Nuclear Plant (NGNP).

Cayetano Santos,
Reactor Safety Branch,
ACRS
