

June 10, 2008

LICENSEE: Wolf Creek Nuclear Operating Corporation (WCNOC)
FACILITY: Wolf Creek Generating Station (WCGS) Nuclear Power Plant
SUBJECT: SUMMARY OF TELEPHONE CONFERENCE CALL HELD ON JUNE 3, 2008,
BETWEEN THE U.S. NUCLEAR REGULATORY COMMISSION STAFF AND
WOLF CREEK NUCLEAR OPERATING CORPORATION, RELATED TO THE
STATUS OF SAFETY EVALUATION REPORT OPEN ITEMS AND
ASSOCIATED COMMITMENTS FOR LICENSE RENEWAL APPLICATION

The U.S. Nuclear Regulatory Commission (NRC or the staff) and representatives of Wolf Creek Nuclear Operating Corporation (WCNOC) held a telephone conference call on June 3, 2008, to discuss the status of the Safety Evaluation Report (SER) open items and associated commitments for Wolf Creek Generating Station (WCGS) license renewal application (LRA). The conference call provides opportunity for clarification of open items as well as the status of commitments related to the open items.

Enclosure 1 provides a listing of the participants and Enclosure 2 contains a brief description of the conference call.

The applicant had an opportunity to comment on this summary.

ENCLOSURE 1

WOLF CREEK GENERATING STATION POWER PLANT
LICENSE RENEWAL APPLICATION
(Brief description of the conference call)

The U.S. Nuclear Regulatory Commission (NRC) staff and representatives of WCNOG held a telephone conference call on June 3, 2008, to discuss and clarify the status of the SER open items 4.3-1 and 4.3-3 and associated commitments. Open items 4.3-1 and 4.3-3 are based on commitments that the applicant provides additional analyses to address the staff's concerns on the validity of metal fatigue analyses used to support the metal fatigue monitoring program for the LRA. These are under ongoing review for open items closure.

Discussion:

During the conference call, the applicant informed the staff that supplemental information will be submitted to further clarify the intent of the additional analyses in relation to the aging management program addressing the effects of metal fatigue on aging of components that have intended functions associated with license renewal. The submittal is scheduled for the week of June 8, 2008. The staff emphasized the need for early submittal to avoid adverse impact to the project schedule. The SER is scheduled to be issued July 29, 2008.
