SUBJECT: NRC INSPECTION REPORT 030-06388/08-001 (NRC FORM 591M)

Dear Mr. Dickes:

This letter and the enclosed NRC Form 591M refer to the inspection conducted on January 15, 2008, at your facility in Sugar Land, Texas, with continued in-office review through May 7, 2008. This inspection was an examination of activities conducted under the authority of Byproduct Materials License 42-00090-03 as they relate to safety and compliance with the Commission's rules and regulations and with the conditions of the license. Within these areas, the inspection consisted of a selected examination of procedures and representative records, observation of activities, and interviews with personnel. At the conclusion of the onsite inspection, a preliminary exit briefing was conducted with you to discuss the inspection findings. A final exit briefing was conducted telephonically with Tom Wood of your staff on May 7, 2008. We recognize that there has been considerable delay between the date of the onsite inspection and the date of the final telephonic exit. This delay was due, in part, to careful consideration of the inspection findings.

Within the scope of this inspection, no violations were identified; therefore, no response to this letter or the enclosed NRC Form 591M is required.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be made available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.
