Mr. Cook,

Thanks for taking time to speak with me today. Please forward the list of government personnel to Jeff Griffis of the NRC. His contact information is Jeff Griffis, Government Liaison Officer, NRC Region II, (404) 562-4737. I've also cc'd Francis Cameron on this email. Mr. Cameron is the facilitator for the public meeting. He does much of the preliminary contact with the officials and interested groups in the areas where the NRC holds public meetings. He would be interested in the information as well. Again, Mr. Cook, thank you for helping out with this.

Sincerely,

Linda Tello

Ms Tello,

I look forward to meeting you. Unfortunately, I will be out of town April 29th – May 2nd on business. I will be glad to try and get a couple of members of my board to meet if possible. Otherwise, I will be glad to help get the word out about the meeting. I would be glad to talk to you by phone if that would help. Just let me know.

Regards,

Jim

Hello Mr. Cook,

My name is Linda Tello and I am the environmental project manager at the US Nuclear Regulatory Commission for the William States Lee III project. I would like to invite the Cherokee County Development Board, as well as other county officials you feel may benefit, to attend the environmental public scoping meeting that will be held at the Gaffney High School on Thursday, May 1, 2008. I've attached the web address to the Federal Register Notice containing the details of the meeting.

Additionally, the NRC Lee project staff and I will be in Gaffney, Tuesday, April 29, 2008, and we would like to schedule a meeting with you for 3:30 pm that day. We would like to have this meeting as an opportunity to meet, as well as, introduce ourselves to you and your staff. Since the public meeting is Thursday, meeting you prior to then would be helpful for us to become more familiar with Cherokee County. Thus, I hope this day and time are agreeable to your schedule. Please feel free to contact me below. We are looking forward to visiting Cherokee County. Thank you.

Sincerely,
