Mark,

On April 30th and May 1st, the NRC staff will be reviewing documents used by Duke Energy to prepare their Environmental Report, submitted as part of their license application. You are welcome to attend but the site tour and resource agency meeting on Tuesday are probably the best opportunity for interagency coordination and would be the most useful for FWS.

If you decide you would like to attend the audit on the 30th, please let me know and I can send you additional details.

Thanks,
Jessie Muir

Jessie,

Lora Zimmerman will represent the Charleston Ecological Services Field Office during the Gaffney field visit on April 29th, but due to prior commitments is unable to participate on the 30th or May 1st. As such, I would like to inquire on the Documentation Review meeting for April 30th. Is this meeting intended for interagency coordination or is it primarily for NRC and Duke Energy officials to discuss documentation requirements? If necessary, I can attend on the 30th.
