Subject: re: EnergySolutions Import License Application IW023

What's going On?, It would appear that someone must be making some Big buck's, dealing with the Nuclear waste? It's mind boggling, why any country would want to take on waste, from other's, just to be nice guy's? So, who is making the \$\$\$, while others look the other way, and allow this to happen? Greed & corruption is ruining the World. In Tennessee, they have been hauling Toxic Waste (radioactive, etc.) and want us to believe, it is harmless??? Who in their right mind, would haul this "stuff" thousands of miles, to get rid of it, if in fact it's harmless? Seems to be worth a lot, to get rid of, not to mention wasting the fuel to transport IT? Somebody better wake up and smell the coffee, before it's too late? And, our public official's, have trouble remembering who they work for, or, is that another deception? The Political system in our Country, needs some overhauling? We don't need the waste from other Countries, how can this be justified? If they can't deal with that waste, then perhaps, they need to stop creating IT? Just my opinion, thank you.....
