Subject: EnergySolutions IMport License Application IW023

NRC:  
Thanks to the legislation introduced by my Congressman Bart Gordon, I urge you to DENY this application to use our United States (the beautiful states of Tennessee and Utah) as a dumping ground for the world's nuclear waste. While I appreciate the fact that the world needs to explore alternate sources of energy, I do not feel nuclear energy is the answer, as it does create a "monster" of radioactive waste that is dangerous and difficult to contain. Once again, this is a "not in my backyard" situation: If Italy (or any other country) insists on using nuclear energy, they need to be responsible for the consequences in their own country and perhaps be forced to develop a **renewable**, less polluting source of energy. In fact, ALL countries need to do this (especially the US, since we are by far the biggest user of energy) so as not to be owned by the **Saudis** (whoever owns the oil, owns the world). Wake up Mr Bush and U.S. government leaders!!!!  
Thank you for your time in reading and considering this.  
Sincerely,  
Patricia Marshall,  
Pacifist and U. S. Citizen
