

SECTION I

INSPECTION OBJECTIVES

Ascertain the licensee's conformance to selected Title 10 requirements applicable during the testing phase.

SECTION III

INSPECTION GUIDANCE

- 1.c.b) Review of the test program shall include checks to verify that any alterations or deletions to the testing described in the FSAR are documented and reviewed in accordance with 10 CFR 50.59. Any deletions of tests identified in Regulatory Guide 1.68 shall be identified to headquarters and shall be identified in the letter issued by the region concerning issuance of the operating license.
