Subject: May 23 seismic meeting

Categories: Yellow Category

Ram,

Can you please let us know if the May 23 date is good for your team to discuss the PSHA sensitivity studies we are working on? We have everyone holding this date and need to know if an alternate plan is required. It's a big group and they are tough to pin down in one place.

Also, can you please provide an update on the ISG for seismic. We thought it would be issued by now.

Thanks for your help.

Leslie
