John, you are correct, our essential need is for Tim to inspect the sandbed UT activities, including UT data review. However, that focused inspection task could run 2 to 3 days.

The discussion I had with Paul, was for Tim's assistance to observe sandbed UTs on Oct 29 (Wed), and sandbed UT data review Oct 30-31 (Thurs-Fri). The data will most probably not be available for our review until late in the next day (Thurs) or Friday.

Tim: Paul Kaufman, Hal Gray, John Richmond and I reviewed options. Modes and Kaufman will also be a OC and will be able to review data...your contribution is essentially to review the sandbed regions, essentially a one to two day effort. Confined space entry training can be scheduled. Richmond agrees, looking at 10/28-30 for onsite at OC. The VY inspection can be scheduled for 10/21-23, with travel days of 10/20 and 10/24. Hal Gray will do the Salem inspection. Do what you need to close out TI-172

Hello John,

At present, John Richmond says I need to be at OC from 10/27 thru 10/31 to look at sandbeds. Outside of the scope
