

June 23, 2009

Mr. James Scarola  
Senior Vice President and  
Chief Nuclear Officer  
Progress Energy, Inc.  
P.O. Box 1551  
Raleigh, NC 27602

SUBJECT: SUPPLEMENTAL REQUEST FOR ADDITIONAL INFORMATION REGARDING  
THE ENVIRONMENTAL REVIEW OF THE COMBINED LICENSE  
APPLICATION FOR THE LEVY NUCLEAR POWER PLANT, UNITS 1 AND 2

Dear Mr. Scarola:

The U.S. Nuclear Regulatory Commission (NRC) staff generated requests for additional information (RAIs) during its review of the Progress Energy Florida (PEF) Levy Nuclear Plant (LNP), Units 1 and 2 environmental report and the site audit conducted from December 2 thru 4, 2008. RAIs from the NRC and U.S. Army Corps of Engineers (USACE) have been provided to PEF as Enclosures to letters (ML090500782 and ML090610163) addressed to your attention.

The NRC and USACE have reviewed the responses to the RAIs and have held several teleconferences with PEF to clarify issues and a summary of these teleconferences will be provided to PEF in the near future. As a result of the reviews and teleconferences the NRC and USACE have determined that additional RAIs are necessary to clarify information. The NRC staff's RAIs are included as Enclosure 1. Enclosure 2 contains the RAIs generated by USACE, which is being submitted under the memorandum of understanding between NRC and USACE (ML082540354) in order for USACE to gather the necessary support documentation to meet their disclosure and decision-making requirements.

The COL environmental review schedule assumes that the NRC will receive technically correct and complete responses within 30 days of PEF's receipt of this RAI. It is expected that a date for receipt of this information will be provided to the staff within the 30-day period in order for the staff to assess potential impact to the published COL environmental review schedule. In addition, any RAI responses that include new and significant changes or additions to information already submitted to the NRC could also impact scheduled completion dates.

J. Scarola
