SUBJECT: ALLEGATION NOS. RIV-2006-A-0033 & RIV-2007-A-0124

Dear (b)(7)c

This letter refers to your meeting with Messrs. Roy J. Caniano, Deputy Director, Division of Reactor Safety, and Mark S. Haire, Senior Operations Engineer, on October 25, 2007. This meeting provided you an opportunity to discuss the NRC's disposition of Allegation RIV-2006-A-0033 regarding the alleged inattentiveness of (b)(7)c at Callaway. During the meeting, you provided the name of another individual, not interviewed by the Office of Investigations (OI), who was a witness to the (b)(7)c sleeping on watch. You also stated that the (b)(7)c provided false information to the OI investigator during his interview as noted in his transcript of interview.

A Region IV Allegation Review Board (ARB) formed to discuss the information that you provided. Based on that discussion, a supplemental investigation to OI Report 4-2006-025 will be initiated in order to interview the additional witness. OI will also initiate a new investigation to assess whether the (b)(7)c provided false information to the NRC during his interview. We have opened Allegation RIV-2007-A-0124 to track the new concern.

The enclosure to this letter documents our understanding of your concern. We will initiate actions to examine the facts and circumstances based on our understanding of your concern. Therefore, if the summary of your concern is not accurate, please contact me so that we can correct any misunderstanding before we complete our review.

In resolving your concerns, NRC intends to take all reasonable efforts not to disclose your identity. However, you are not considered a confidential source unless an explicit request of confidentiality has been formally granted in writing.

Thank you for notifying us of your concern. We will advise you when we have completed our review of this matter, the results of our supplemental investigation, and any impact that these resolutions may have on our original assessment. Should you have any questions or comments during the interim regarding this matter, please call me Monday - Friday between 8:00 a.m. and 4:30 p.m. central time at 800-952-9677, Extension 245.

Sincerely,

Harry A. Freeman

STATEMENT OF CONCERN

RIV-2007-A-0124

Allegedly: The (b)(7)c provided false information to the NRC investigator during his interview. Specifically, (b)(7)c indicated that he attended all Control Room shift turnover meetings between October 20, 2005, and the end of the refueling outage in December 2005 to monitor the behavior of a (b)(7)c who had been reported as being inattentive. You stated that you were present at those meetings and did not observe (b)(7)c in attendance.
