

Performance Indicators - There are three performance indicators in the emergency preparedness cornerstone:

- **Drill/Exercise Performance** - The percentage of all drill, exercise, and actual opportunities that were performed timely and accurately during the previous eight quarters.
- **Emergency Response Organization (ERO) Drill Participation** - The percentage of key ERO members that have participated in a drill, exercise, or actual event during the previous eight quarters, as measured on the last calendar day of the quarter.
- **Alert and Notification System Reliability** - The percentage of ANS sirens that are capable of performing their function, as measured by periodic siren testing, in the previous 12 months. Periodic tests are the regularly scheduled tests that are conducted to actually test the ability of the sirens to perform their function (e.g., silent, growl, siren sound test).

Emergency Preparedness Indicator	Thresholds		
	(White) Increased Regulatory Response Band	(Yellow) Required Regulatory Response Band	(Red) Unacceptable Performance Band
Drill/Exercise Performance	< 90.0 %	< 70.0 %	N/A
ERO Drill Participation	< 80.0 %	< 60.0 %	N/A
Alert and Notification System	< 94.0 %	< 90.0 %	N/A
