(NOTE: This will be used as the Documents Title in ADAMS)

11:45 I left a message on Ms. Denman's voice-mail for her to get back in touch with me.  
14:45 I spoke with Ms. Denman. She stated that she had attempted to contact someone in the NRC to get guidance on what was needed to terminate the license. I informed her that she needed (1) a removable contamination survey, (2) a radiological survey, (3) a copy of the last leak test performed on the sealed sources in their possession, (4) a statement regarding a review of previous leak test records and a statement whether they ever had a leaking source, and (5) a letter from the radiopharmacy indicating that it has taken possession of the sealed sources in the licensee's possession.
