Jerry,

I know you are leaving today to DTE. Do you think that there would there be someone here at the office that we could work with to get the announcement out in case you agree with DTE on a day while you are at their offices?

I will be out of the office Tuesday - Thursday of this week.

Thanks Jerry! Again, we really would like to have the meeting on the week of the 22nd, but I understand the 10-day policy.

George, could you help Jerry with the agenda? It should be something simple.

Like the subject of the meeting would be: "Public Meeting with DTE on Fermi COL Application Quality Assurance Program Review"

The only item I can think for the agenda is: Discussion on QA programs implemented by DTE for design activities during the development of the COL application (Speaker: DTE)

Let me know if you have any questions.

Thanks!
Aida

Aida,

I have not received confirmation from DTE on a date for the public meeting. I have drafted the notice and will fill in the blanks when we have an agreed upon date. Could you send me the topics and approximate time to go on the agenda. I will need the agenda as part of the meeting notice, and have attached an example. We will need 10 calendar days to publish the meeting notice. Friday, 6/12/2009 would be the latest to publish for a meeting on the 24th or 25th (this works if I get DTE feedback today); 6/19/2009 would be the latest to publish for the 30th. However, since the 19th is on a Friday, I would want the notice to go out on the 18th.
