Stephen,

Thank you for pointing out the inconsistency. Fermi's review of the application has now been scheduled as noted in the letter I sent to them and on the Fermi COL web page. I have requested that the page you showed to me in the link below be updated to reflect the latest information.

Dear Mr. Tonacci,

I am currently updating the information that the World Nuclear Association holds on planned reactors in the US.

In the recent update of the NRC's licence review schedule,  
<http://www.nrc.gov/reactors/new-reactors/new-licensing-files/new-rx-licensing-app-legend.pdf>  
it states that the Fermi COL application review is not scheduled. This contradicts your letter of June 30, 2009 to Mr. Jack M. Davis of Detroit Edison Company  
<http://adamswebsearch2.nrc.gov/idmws/ViewDocByAccession.asp?AccessionNumber=ML091740221>  
which gives a schedule.

Please would you confirm the status of the COL review for Fermi.

Best regards,
