**Subject:** Request for Additional Information

(NOTE: This will be used as the Documents Title in ADAMS)

I left a message on Ms. Teachout's voice-mail concerning a need for the most recent leak test record, a review of past leak test records and whether the area where the sealed source was stored is being released for unrestricted use.

14:30 MS. Teachout returned my call. She described the source as a device made in the 1960's and that it had been in storage for a long time. The device had been leak tested in November 2008 and again prior to transfer to JL Shepherd & Associates. The area of storage where the device was stored is still being used for the storage of other radioactive material and will remain a restricted area. Ms. Teachout indicated that she would fax me the requested information so that the action could be closed out.

**Action Required: Place in ADAMS. Awaiting additional information.**
