(NOTE: This will be used as the Documents Title in ADAMS)

The licensee's RSO left and the licensee has requested to name an acting RSO. However, from the licensee's letter dated August 8, 2009, it appears that the designated acting RSO does not have the required training to be named RSO on the license. I called the licensee to verify his training and to confirm that they currently have a qualified person who may act as RSO. The licensee stated that they have hired another individual who is currently listed as RSO on another radiography license, to replace the RSO.

He told me that the individuals mentioned in his letter will not be coming and that he wants the third individual to be named RSO. I requested that he send a written request to disregard its letter dated August 8, 2009, and submit the name and training of the newly hired individual, including the license number where the individual is listed as RSO.

He will fax the requested information soon.
