Deputy Director
Office of International Progress
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Re: Annual Americium Export Report

Dear Director:

The enclosed report is provided in accordance with the requirements of 10 CFR 110.23(b). Troxler manufactures and distributes nuclear gauges that contain americium-241 in the form of sealed sources. The intended use of these gauges is for the measurement of material properties (e.g., moisture content). All export shipments of gauges containing americium-241 during the previous calendar year are listed below. If you have any questions, please feel free to contact me 919-485-2228.

Sincerely,

Stephen A. Browne
Corporate Radiation Safety Officer
