Subject: Transmittal of Emergency Preparedness Drill Information Conducted at Fermi 2 Since the 2008 Biennial Exercise

In Reference 2, Detroit Edison submitted a request for an exemption from the requirement of 10 CFR 50, Appendix E, Section IV.F.2.b for conducting a biennial emergency preparedness exercise. In Reference 3, Detroit Edison provided a response to NRC request for additional information (RAI) regarding the exemption request.

In an e-mail from Mr. Mahesh Chawla to Mr. Alan Hassoun dated October 29, 2010, the NRC provided Detroit Edison with comments on the information in References 2 and 3. The comments were discussed in a teleconference meeting between NRC and Detroit Edison representatives on November 4, 2010. Based on the discussion, Detroit Edison

USNRC  
NRC-10-0078  
Page 2

agreed to provide a summary table for all the emergency preparedness drills conducted at Fermi 2 since the last biennial exercise in 2008. The table is provided in the enclosure to this letter.

There are no new commitments included in this document.

Should you have any questions or require additional information, please contact Mr. Rodney W. Johnson of my staff at (734) 586-5076.

Sincerely,

A handwritten signature in black ink that reads "Joseph H. Plone". The signature is written in a cursive style with a large initial 'J' and a long horizontal stroke at the end.
