REMARKS: IMC 2502 (Construction Inspection Program: Pre-Combined License (Pre-COL) Phase) has been revised to: (1) delete all pre-COL application audits, (2) delete engineering design verification inspections and audits, (3) add a quality assurance (QA) program review, and (4) add pre-construction inspection activities. In addition, the definitions have been modified to be consistent with IMC 2506, "Construction Reactor Oversight Process General Guidance and Basis Document."

IP 35007 (Quality Assurance Program Implementation During Construction and Pre-Construction Activities) has been revised to expand the scope to include inspection of pre-COL activities and to clarify when the inspection of QA implementing documents related to construction begins.
