Reference: State of Illinois Radioactive Material License No. 12-32696-01-01
Request for Amendments to License

Dear Ms. Pelke:

On May 20, 2011, ECS Midwest, LLC (ECS) located at 1575-1579 Barclay Boulevard, Buffalo Grove, Illinois submitted a request to amend our license due to a replacement for our new company Radiation Safety Officer (RSO) and change in our company name from ECS Illinois, LLC to ECS Midwest, LLC. We requested an amendment for Mr. James Jacobson replacing Mr. Guevarra as our new RSO. Unfortunately, Mr. Jacobson submitted his resignation and is no longer employed with us effective July 8, 2011.

Mr. David Allemana is replacing Mr. Guevarra as our new Radiation Safety Officer. Mr. Allemana is one of our personnel supervising our field technicians. Mr. Allemana has knowledge of use and application of portable nuclear moisture density gauges and has experiences as an RSO. He has completed the Nuclear Gauge Safety Training Class, Radiation Safety Officer Training Class with the Troxler Electronics Laboratories and has refreshed US DOT/IATA HAZMAT Certification related to transportation of nuclear gauges. In addition, he has completed a Standard Earth Density Tester Course and Bituminous Concrete Density Tester Course with Illinois Department of Transportation. Attached herewith are copies of Mr. Allemana's certifications.

We apologize for any inconvenience this may bring. We hope the information for this new amendment request including supporting documents will be sufficient for your present needs. If you have any questions regarding the information contained in this application and need additional information, please contact us at (847) 279-0366.

Respectfully,

ECS MIDWEST, LLC

Danilo A. Guevarra
Current Radiation Safety Officer

Brett Gitskin, P.E.
President

HAZMAT CERTIFICATION

as required by U.S. DOT and IATA

This certifies that

David N. Allemana

has been trained and tested in accordance with the U.S. Department of Transportation and International Air Transport Association (IATA) hazardous material requirements for general awareness/familiarization, function-specific, safety, and security awareness training as related to the transportation of nuclear gauges. A description of the training course materials is available from Troxler Electronic Laboratories, Inc. This certificate expires three years from the training date shown below.

July 15, 2011

EMPLOYER CERTIFICATION

I certify that the hazmat employee identified on this certificate has been trained and tested as required by U.S. DOT Hazardous Material Regulations (49 CFR 172 Subpart H).
