Re: Amendment for License No. 10-29283-02 (Digirad Imaging Solutions, Inc.)

Dear Sir or Madam:

Please delete 301 Connecticut Drive, Hobart, Indiana from the above referenced radioactive materials license. This location was added in 2008 with the intent to conduct nuclear medicine studies as a fixed site with a hot lab for storage of radioactive material.

Due to unforeseen business reasons following the addition of this site to the license, Digirad did not use this site for nuclear medicine scans and no radioactive material was ever stored at this location.

Please let me know if you need additional information to process this request.

Thank you for your immediate attention to this matter.

Sincerely,

Daniel P. Leddy, M.S. HP

From: West Physics Consulting
Date: 12/20/2011
Pages: 2 (including cover page)

Comments:

Attached please find a request to amend the referenced RML to remove a storage location from condition 10.

Sincerely,

Daniel P. Leddy, M.S. - HP
