Mr. Dinsmore and Mr. Gallucci

In order to assist with your Westinghouse peer report review, we would like to provide (attached) a short summary paper explaining how each of the Fact & Observations (F&Os) findings were addressed.

Please let us know if we can be of any further assistance or answer any additional questions. Deepak Rao is still your primary Entergy PRA point of contact.

Thank you,
Billy Steelman

Thomas

Thank you for providing us this opportunity.

Ray Gallucci and I (Stephen Dinsmore) would like to come by from 9am and 11am on Thursday December 15. Two printed copies and one work area would be best. A call with the peer review lead about 10:30 would probably be helpful.

The purpose of this brief review is to determine how complete the PRA was when the Peer review was done. I will confirm the time with Leslie Collins but a little later today since there are meetings this morning.

Gentlemen,

I will go ahead and send the report down to the Westinghouse offices so they can print it for your review. I will tell them to make three copies for each reviewer. Please let me know if more is needed.

The reviewers should call Leslie Collins at 301/881-7040 to schedule an appointment for the review. Good days this week are Tuesday afternoon, and all day Thursday and Friday. (Again, our office hours are 9 am until 5 pm.)

Should I ask the peer review lead to be available by phone to answer questions?

The usual ground rules for these reviews in our office is that the NRC reviewers take notes, but not ask for photocopies of the materials, or to take any materials out of our office. Let me know if this will be an issue.

Thanks,

Thomas Zachariah, Jr.

Importance: High

Tom,

Per our recent conversation, the NRC people who have requested to view the WF3 Fire PRA Peer Review Report are

Stephen Dinsmore (phone 301-415-8482)
Ray Gallucci (phone 301-415-1255)

Also potentially Donnie Harrison, Branch Chief for PRA.

They would like to do so next week and for approx 2 hours. Can you please arrange for this viewing per our earlier conversation. Please call me if you have any questions

Thanks,
