Subject: TNF-XI package

Hi Kamran,

We are still working on the TNF-XI package. It does not appear to be any RAIs. YEAH! I will be on leave during the holidays that but will try to finish up the package by early to mid January.

I do have a question regarding the package. One of the RII inspectors noted something on this package during a recent inspection. Chapter 7, section 7.1.1 states to inspect the 4 inner lid and outer plug bayonets in each well. Do you know where on the licensing drawings these 4 inner lid and outer plug bayonets are shown? I ask because the inspector noted that the drawings appear to show 6 bayonets. I took a look at the drawings and I can't be certain one way or the other. Pc 19 "Inner bayonet" appears to have 6 slots and Pc 8 appears to have 4. I appreciate you taking a look at this. The inspectors just wanted to make sure that there isn't a discrepancy in the actual package and the drawings.

Please let me know if you have any questions with what I'm asking.

I will be out starting on the 20th and returning the 29th. I will be here today until 2:45 pm and Monday all day.

Thank you in advance!

Jennie
