**To:** Montgomery, Cindy  
**Subject:** Additional extension request for RAIs (Ref: ML111890201 and ML103400250)

Dear Ms. Montgomery,

Purdue University is requesting additional time to generate the responses for the Requests for Additional Information in your letters dated 8 July 2011 (ML111890201) and 14 July 2011 (ML103400250). Some of the responses will require computational modeling that PUR-1 does not have the time resources to complete in a timely fashion. We have requested support from DOE-ID which has been offered to other facilities in the past.

Contingent on the availability of the support from DOE to complete the work, and the workload and scheduling ability of the groups that will assist, we request the following:

- For the RAIs in the letter of 8 July 2011 (ML111890201), we request a new deadline of 31 March 2102.
- For the RAIs in the letter of 14 July 2011 (ML103400250), we request a new deadline of 15 May 2012.

We appreciate your consideration in this matter.

Regards,

--jere
