

Note to File:

Subject: Action to be taken during next amendment for the Woodin & Associates, Inc.  
License

When maximum possession limits were added to this license, License Condition 13 was not removed from the license per instructions. The next time a licensed action is opened for this license, this Note to File should be included in the action as a heads-up for the license reviewer. The reason why a license amendment is not being opened on this date is because the license condition is redundant since the maximum possession limits were placed on the license.

Woodin & Associates, Inc., LN 07-31039-01, DN 030-36918
