Dear Ms. Emge:

This refers to your letter received October 18, 2011, and to our telephone conversation on December 27, 2011. During the telephone conversation, we discussed voiding your request at this time because you are planning to close your nuclear medicine department on or about December 31, 2011. We will void your request to allow you time to gather the additional close-out survey information you need to submit with your request to terminate your NRC license. We will void your request without prejudice to resubmission. Please submit the additional information as requested in the enclosed "Request for Additional Information".

When you resubmit your request please state that the resubmission is additional information to **Voided Control 576225**. We will resume our review upon receipt of your response. Please note, that a "voided request" is an administrative procedure that puts your amendment request "on hold" until you reactive it by a written response. The "voided request" is regarded as "good" because it gives you time to prepare a quality response.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

A handwritten signature in cursive script that reads "William P. Reichhold".
