Subject: Oral statements at the ASLB meeting at the Plantation Inn, Crystal River, Florida

Hello Matthew Flyntz and Sara Culler,

I wish to make an oral statement concerning the proposed construction of the two new Nuclear Power Plants in Levy County, Florida. The location of the two new nuclear power plants is on Florida Nature Coast, one of the last pristine areas left in Florida. The area is home to many endangered species of plants and animals and the two nuclear plants with the added growth of management and workers moving to the area will increase the stress of development to a valuable native habitat.

Thank You,
Greg Wilson
