Reference: License SMB-911; Docket No. 40-7580
License Conditions 37d and 41

Dear Mr. Shepherd:

FMRI would like to ask for an extension of 90 days to further evaluate the information from the SCR referenced in LC-31b. We need all the information that is contained in that report to evaluate the work plans and method of groundwater compliance. The characterization of all the SCR needs to be complete before LC-37d and LC-41 are submitted. This extension allows for time to convert the data from the site characterization report into a detailed work plan for Phase IV.

If you have any questions, please call me at (918) 687-6303.

Sincerely,

A handwritten signature in black ink, appearing to read 'R. Compennolle', is written over the typed name.
