Subject: Apparent Cause Evaluation Report
Attachments: Final ACE for tube to tube wear.pdf

Good morning Kaly. It is starting to appear that winter is coming back here. Rain and the temperatures starting to go back down. Oh boy. Just what I need for the first working Monday of the year.

Last year when we had our conference calls related to the ANO-1 Steam Generator tube to tube wear, one of the items the Staff requested was the final Apparent Cause Evaluation Report. I have attached a copy of that report to this email in response to that request. I am sure we will talk about this in more detail in a couple of weeks during the meeting. Because of that, I have copied Peter Bamford to make sure we are all on the same page.

If there is any information that was requested from those calls that I have missed, please let me know.

Thanks

Bob
