Southern Nuclear Operating Company  
Vogtle Electric Generating Plant Units 3 and 4 Combined License Application  
SNC Review of Final AP1000 Design Certification Amendment

Ladies and Gentlemen:

The purpose of this letter is to identify the results of a Southern Nuclear Operating Company (SNC) review of the final language of the AP1000 design certification amendment. This review has confirmed that the SNC combined license application for the Vogtle Electric Generating Plant (VEGP) Units 3 and 4 appropriately reflects the final language and the associated AP1000 Design Control Document Revision 19. Thus, there are no further submittals known to SNC as necessary for completion of the review of the application and subsequent issuance of the requested first-ever combined license under the Part 52 processes.

If there are any questions regarding this report, please contact Mr. Wes Sparkman at (205) 992-5061 or Ms. Amy G. Aughtman at (205) 992-5805.
