To NRC & Santa Maria Times,

WHY do you permit the Diablo Canyon Nuclear Power Plant to continue to exist????????????  
In 1978 as a responsible Biologist I was arrested in front of Diablo because they did not know what they would do with their nuclear waste. I was told no worry as Yucca Mt. would be functioning. Here we are over 30 years later---WHAT ARE THEY DOING WITH THEIR NUCLEAR WASTE???????? I went to jail because of my action. I suggest the CEOs of Diablo be put in jail like I was. Diablo is storing this terrible material on site with earthquake faults. (like Japan) I live down wind to the plant.  
WHY do you permit the Diablo Canyon Nuclear Power Plant to continue to exist????????????

William Denneen, Retired College Biology Prof., 1040 Cielo Lane, Nipomo, 93444 805-929-3647

PS Where are the e-mail addresses????? I realize my letter will probably be filtered: "The NRC filters "junk" email, such as unsolicited bulk email..." I will send to our local paper. I suggest an article entitled: CLOSED DIABLO ASAP  
.....
