SUBJECT: SUMMARY OF TELECONFERENCE WITH NUCLEAR INNOVATION
NORTH AMERICA, LLC ON FOREIGN OWNERSHIP, CONTROL AND
DOMINATION ON JANUARY 4, 2012

The U.S. Nuclear Regulatory Commission (NRC) held a teleconference with Nuclear Innovation North America, LLC (NINA) to discuss the staff's letter to NINA dated December 13, 2011 (ML113390176), related to the South Texas Project (STP) Units 3 and 4 Combined License Application (COLA) Foreign Ownership review. In the letter, the staff stated that NINA's application does not meet the requirements of *Title 10 of the Code of Federal Regulations* (10 CFR) Section 50.38 with regards to foreign ownership, control and domination and that a license would not be issued until the requirements of 10 CFR 50.38 are met. The letter also stated that the NRC staff would support a public meeting with NINA to discuss the results of the review.

The staff opened the teleconference by stating the purpose of the meeting and introducing the staff members in attendance. The staff requested introductions of the NINA participants and the members of the public. At the request of NINA, the principal technical reviewer for the staff gave a summary of the NRC foreign ownership review process and how she came to the conclusion that the STP Units 3 and 4 COL application did not meet the requirements of 10 CFR 50.38. The applicant asked several clarifying questions and offered counter arguments to the staff's findings. At the end of the meeting, the staff offered the opportunity for questions or comments to the members of the public. No questions were asked by the public and the meeting was adjourned.

Enclosed with this summary are the agenda for the meeting and the list of attendees.
