Subject: Additional information for amendment request

(NOTE: This will be used as the
Documents Title in ADAMS)

This telephone conversation record summarizes communications by telephone and e-mail. I asked Jim to provide the following additional information regarding the request to add SIR-Spheres, under signature of Cabell Huntington Hospital management:

- 1) Provide a facility diagram of the interventional radiology procedures rooms in which SIR-Spheres cases will be performed.
- 2) For each of the three proposed authorized user physicians:
 - a) Confirm that classroom and laboratory training in the four topics listed in Section A3ii of the October 2011 NRC licensing guidance included Y-90 microspheres.
 - b) Confirm that work experience under the supervision of an AU for Y-90 microspheres or a Y-90 microsphere manufacturer representative included each of the 7 tasks listed in Section A3iii of the October 2011 NRC licensing guidance.
- 3) Confirm that Dr. Blom will complete an additional Y-90 microspheres patient case supervised in the presence of a Sirtex representative, or provide documentation that this has already occurred. [The Sirtex Proctoring Evaluation form for his 3rd case stated that at least one additional proctoring case was needed.]
- 4) Jim informed me that Cabell Huntington Hospital will perform its first Y-90 microspheres case supervised in the presence of a Sirtex representative. Confirm this in the signed response.

Action Required: Await response, then issue amendment
