

Note to File:

Subject: Action to be taken during next amendment for Delaware Outpatient Center for Surgery License

When this license was issued, License Condition 13 was mistakenly included. The next time a licensing action is opened for this license, this Note to File should be included in the action as a heads-up for the license reviewer. The reason why a license amendment is not being opened on this date is because the license condition is redundant since the license has possession limits and the licensed material has a half-life of less than 120 days.

Delaware Outpatient Center for Surgery, LN 07-31332-01, DN 030-37830
