SUMMARY (Continue on Page 2)

On August 26, 2011, I called Dr. Jones to follow up on a March 31, 2011 letter to the Commission concerning Calvert Cliffs Nuclear Power Plant LLC's (CCNPP's) application to renew its NRC license for CCNPP's onsite Independent Spent Fuel Storage Installation (ISFSI). The March 31 letter sought information on historic or cultural properties in the area of the ISFSI and to identify any issues with the potential effect of the proposed license renewal on historic or cultural resources.

Dr. Jones asked that the March 31 letter be resent to her, and that to her knowledge, this request was not on the Commission's radar. She said that she would bring it to the Commission's attention at their next public meeting in October 2011.

With that, the call ended.
