**INDIAN POINT UNIT 2
CONTAINMENT INSERVICE INSPECTION
FIRST PERIOD EXAMINATIONS**

**Category E-A, Liner General Visual Examination
Tab D - Inspection Records**

ATTACHMENT A General Visual Exam Requirements Sheet

SCOPE OF GENERAL VISUAL EXAMINATION:

Accessible surface areas of the containment liner as defined in the Containment ISI Program Plan and inspection drawings.

CONDITIONS TO BE EXAMINED FOR:

General conditions for all areas and components:

- a. Nicks, gouges, arc strikes
- b. Metal cracking
- c. Metal corrosion
- d. Rust staining

Painted or coated surfaces shall be examined for evidence of missing paint or coating, flaking, wear, erosion, blistering, peeling, discoloration, nicks or gouges that extend to the base metal and other signs which may indicate degradation of the substrate beneath the coatings.

Non coated surfaces shall be examined for evidence of cracking, discoloration, wear, pitting, excessive corrosion, arc strikes, gouges, surface discontinuities, dents, and other signs of surface irregularities.

PERSONNEL CERTIFICATION REQUIREMENTS:

Personnel performing General Visual Examinations shall be qualified by the Responsible Engineer. Completed Attachment G forms shall be attached to the documentation package.

ATTACHMENT A
General Visual Exam Requirements Sheet (cont'd)

LIGHTING REQUIREMENTS:

Flashlight or floodlights shall be used as required to perform the examinations. Illumination shall be verified by demonstrating that a 1/32" black line on a white background can be resolved.

EXAMINATION DISTANCE REQUIREMENTS:

Examinations shall be performed from floors, platforms and other permanent vantage points which provide the closest examination distance practical. Remote examination methods (e.g., binoculars) shall be used where access is not available for unaided visual examination. Remote examination methods require that distance and illumination be demonstrated and documented per Attachment C.

The Responsible Engineer has reviewed these requirements for applicability to
Indian Point Unit 2
and approves them for conduct of the General Visual Examination.

RESPONSIBLE ENGINEER: Bryan Eiler DATE 3/10/00
by Chris Sward per telecon

These requirements have been reviewed with the examiners to ensure understanding.

REVIEW CONDUCTED BY: Chris Sward DATE 3/10/00

ATTACHMENT B Prerequisites and Examination Instructions

PREREQUISITES

The following steps shall be completed by the lead examiner or Responsible Engineer prior to performing the examinations. Each step shall be initialed and dated as it is completed.

- ED* 3/9/00 B1. REVIEW the ISI Program Plan to identify the components/areas to be examined.
- ED* 3/9/00 B2. RECORD the Component number or Zone Number on Attachment D.
- ED* 3/3/00 B3. REVIEW the inspection criteria on Attachment A with the Responsible Engineer prior to the start of the examinations.
- ED* 3/9/00 B4. OBTAIN copies of the containment ISI drawings (e.g., general arrangement, zone and detail drawings) which define the components and boundaries for inspection and verify that they are the latest revision.
- ED* 3/9/00 B5. REVIEW the containment ISI drawings for the areas which require examination.
- ED* 3/9/00 B6. REVIEW the examination scope with Radiation Protection and Work Planning to determine the required support to perform the examinations and Work Area Permit required.
- ED* 3/9/00 B7. IDENTIFY any areas if known which require scaffold.
- ED* 3/9/00 B8. IDENTIFY any areas if known which require insulation removal.
- ED* 3/9/00 B9. IDENTIFY the equipment required to perform the examinations. (i.e. flashlights, flood lights, binoculars, cameras etc.)
- ED* 3/9/00 B10. IDENTIFY the number of required inspectors to complete examinations in the required time frame.
- ED* 3/3/00 B11. OBTAIN copies of the Personnel Qualification Forms (Att. G) of the inspectors that will perform the examinations and forward to the Responsible Engineer for review and acceptability. Have Responsible Engineer sign the form when complete.

ATTACHMENT B

Prerequisites and Examination Instructions (cont'd)

WHL 3/9/00

B12. ATTACH copies of the certification forms to the surveillance documentation package.

WHL 3/3/00

B13. VERIFY that personnel assigned to perform this surveillance are familiar with the contents of this procedure and associated attachments and checklists.

WHL 3/3/00

B14. VERIFY the Authorized Nuclear Inservice Inspector (ANII) has been notified of the examinations that are scheduled to be performed in accordance with this surveillance procedure. The ANII shall be given ample notice so he may have the opportunity to establish witness points.

WHL 3/9/00

B15. VERIFY that certification records for personnel performing examinations and testing have been provided to the ANII for review.

N/A WHL 3/9/00

B16. When required DEMONSTRATE the visual and lighting requirements for performing the remote examinations to the ANII, Attachment C.

ATTACHMENT B Prerequisites and Examination Instructions (cont'd)

EXAMINATION

The following steps shall be completed by the examiner performing the examinations. Each step shall be initialed and dated as they are completed.

RE 3/3/00

- B17. REVIEW the General Visual Exam Requirements Sheet (Attachment A) with the Responsible Engineer. After all questions are answered sign the sheet as the Examiner.

RE 3/15/00

- B18. PERFORM the general visual examination on the areas specified on the drawings per the requirements of Attachment A.

RE 3/15/00

- B19. RECORD the general visual examination results on the Attachment D data sheets. Record conditions exceeding the recording criteria of Section 10.0 on the observation form in Attachment D. Additional information that meets the acceptance criteria can be recorded in the comments section of the attachment.

CAUTION

If areas are identified with indications prior to completing all of the required examinations for this surveillance, SIGN the data sheets for those areas and immediately forward to the Responsible Engineer for disposition.

RE 3/15/00

- B20. SIGN the Attachment D data sheets and attach the sheets to surveillance documentation package.

RE 3/31/00

- B21. SUBMIT the completed checklists to the Responsible Engineer for review.
