Mr. Donald Millar, Radiation Safety Officer
Alaska Industrial X-Ray, Inc.
4047 Kingston Drive
Anchorage, Alaska 99504

SUBJECT: RECORD OF 6-MONTH CONFERENCE CALL

Dear Mr. Millar:

This is to document the conference call conducted on January 5, 2012, between you and the following members of my staff: Ms. Vivian Campbell and Messrs. Michael Vasquez and Jason Razo. The purpose of the call was to discuss the status of your compliance with the CONFIRMATORY ORDER MODIFYING LICENSE (EFFECTIVE IMMEDIATELY) issued on June 7, 2011.

The topics that were discussed included completion of required training on willfulness, internal quarterly audits, and plans for an upcoming external audit. You stated that the company approved by the NRC provided the required training on willfulness and that employees engaged in radiographic activities did attend one of the two training sessions by December 22, 2011. You stated that you conducted audits of radiography crews in the field, and you attempted to perform the audits without being detected by the crews. Any areas for improvement identified during the audits were discussed immediately with the respective crew. Finally, you stated that you are coordinating an upcoming external audit with the auditor approved by the NRC.

The NRC noted your good initiative to attend a radiation safety officer course in November. The NRC also noted that no violations were identified during its last inspection conducted at your facility on August 3, 2011.

You are not required to respond to this letter. In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be made available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm-/adams.html>.

Alaska Industrial X-Ray, Inc.
