RECEIVED  
REGION 1

Dear Sir or Madam:

Our current Radiation Safety Officer, Dr. Mohammed Yousaf, is retiring in the very near future. We therefore wish to change RSO to Mark Younis, M.D. as soon as possible. Note that Dr. Mark Younis is currently listed on our license as an authorized user for 10 CFR 35.100 and 35.200 and is listed as an AU and RSO for these uses on NRC Radioactive Materials License 47-17058-01.

We have agreed in writing to delegate the necessary authority needed fulfill the duties of RSO to Dr. Younis who has agreed in writing to implement the radiation protection program. Supporting documentation is attached.

Your expeditious attention in this matter is greatly appreciated. If you have any questions regarding this notification, or should you need any further information, please do not hesitate to contact me.

Sincerely yours,

Badshah Wazir, M.D., President

Memo To: All Employees

From: Badshah Wazir, M.D., President

Subject: Delegation of Authority

Dr. Mark Younis has been appointed Radiation Safety Officer and is responsible for ensuring the safe use of radiation. The Radiation Safety Officer is responsible for managing the Radiation Safety Program; identifying radiation safety problems; initiating, recommending, or providing corrective actions; verifying implementation of corrective actions; and ensuring compliance with regulations. The Radiation Safety Officer shall ensure that the license activities are performed using approved procedures and meeting the regulatory requirements in the daily operations of the Radiation Safety Program. Radiation Safety Officer is hereby delegated the authority necessary to meet those responsibilities.

  
Badshah Wazir, M.D.

## RSO Agreement to Implement Licensee's Radiation Protection Program

A licensee's management shall appoint a Radiation Safety Officer, who agrees in writing to be responsible for implementing the Radiation Protection Program. The licensee, through the Radiation Safety Officer, shall ensure that radiation safety activities are being performed in accordance with licensee-approved procedures and regulatory requirements. This requirement applies to any individual who assumed the duties of RSO after October 24, 2002 for NRC licenses (the effective date of the Final Rule for NRC Licensee's).

The established duties and responsibilities of the Radiation Safety Officer are:

1. Each licensee shall develop, document, and implement a Radiation Protection Program sufficient to ensure compliance with the provisions of the Regulations. The RSO shall be responsible for implementing the Radiation Protection Program.
2. As part of the Radiation Protection Program, the licensee shall use, to the extent practical, procedures and engineering controls based upon sound radiation protection principles to achieve occupational doses and doses to members of the public that are as low as is reasonably achievable (ALARA);
3. The licensee shall, at least annually, review the Radiation Protection Program content and implementation
4. Review and approve revisions to the Radiation Protection Program

The licensee agrees to provide the Radiation Safety Officer with sufficient authority, organizational freedom, time, resources, and management prerogative, to:

1. Identify radiation safety problems;
2. Initiate, recommend, or provide corrective actions;
3. Stop unsafe operations; and,
4. Verify implementation of corrective actions.
