SUBJECT: REQUEST FOR ADDITIONAL INFORMATION CONCERNING APPLICATION  
FOR AMENDMENT TO LICENSE, CONTROL NO. 576542

Dear Dr. Galiber:

This is in reference to your letter dated December 12, 2011 requesting to amend Nuclear Regulatory Commission License No. 55-25547-01. In order to continue our review, we need the following additional information:

1. It appears that Advanced Radiology LLC operates a nuclear medicine program in the Hospital. Please submit a lease agreement from the Hospital granting Advanced Radiology LLC sole access to the facilities within the Hospital. Additionally, please confirm that the name on the NRC license should be Advanced Radiology LLC with a mailing address at the hospital. Alternatively, the Hospital may retain the NRC license if the Hospital senior management concurs with the statements made in the original application and letters dated January 28, May 26, and July 26, 2011.
2. Please submit a preceptor attestation statement signed by a current Radiation Safety Officer to support your request to name Dr. Angelo Galiber as your new Radiation Safety Officer. The form may be found at <http://www.nrc.gov/materials/miau/med-use-toolkit.html#forms>. Please complete Part II of the NRC Form 313A (RSO).

Current NRC regulations and guidance are included on the NRC's website at [www.nrc.gov](http://www.nrc.gov); select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits, see our toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

We will continue our review upon receipt of this information. Please reply to my attention at the Region I Office and refer to Mail Control No. 576542. If you have any technical questions regarding this deficiency letter, please call me at (610) 337-5169.

If we do not receive a reply from you within 30 calendar days from the date of this letter, we will
