Attachments: FW: Draft Biological Opinion for Salem/Hope Creek

Julie,

I have attached PSEG's comments on the draft Salem biological opinion, which I received yesterday, to this email. PSEG has suggested that NMFS, NRC, and PSEG meet in person and possibly participate in a short site tour so that the conditions in the final biological opinion can better capture the intake system at Salem. NRC is able to support this request. Please let me know if your office would be able to support you traveling to the Salem site for this purpose, and we can figure out details from there. Thanks,

Briana
