SUBJECT: GAMMA IRRADIATOR SERVICE, ACCEPTANCE OF NOTIFICATION TO  
MOVE A GAMMACELL 1000 SELF-SHIELDED IRRADIATOR

Dear Mr. Stout:

This is in reference to your electronic mail (e-mail), dated January 5, 2012 (received on January 10, 2012) in which you requested relief from the NRC Confirmatory Action Letter (CAL) issued to Gamma Irradiator Service (GIS) on October 20, 2011. Specifically, your company would like to perform work at a client's site involving the relocation of a self-shielded irradiator.

Based on the information provided we have concluded that the planned work for your client would be acceptable under the CAL that was issued to your company; and relief from the commitments contained in the CAL would not be required. The relocation of the self-shielded irradiator for this particular client would allow for the sources to remain in a safe shielded condition. The NRC notes that this specific activity does not involve source reloads or exchanges, which are activities that you are currently prohibited from conducting.

Please contact Kathy Modes of my staff at 610-337-5251 if you have any questions regarding this matter.

Thank you for your cooperation.

Sincerely,
