Subject: RE: Draft News Release for NA AIT Exit

Rick – I sent it out to staff here for their comments. What is your deadline?

I went through it and had one thought to better mirror the language in Part 100 Appendix A:

The station remains shut down and NRC regulations require that the station not start up until it can demonstrate to the Commission that no functional damage occurred to those features needed for continued safe operation.

Subject: FW: Draft News Release for NA AIT Exit

Allen,
Attached is the press release we plan to issue next week. We aren't looking for concurrence, but we would welcome any comments you may have.
