Subject: Amendment to license
(NOTE: This will be used as the Documents Title in ADAMS)

I called to get additional information and clarification regarding their amendment request dated December 20, 2011.

I told him we needed proof of gauge transfer from the location they were seeking to remove from the license. He stated that they had transferred all devices from that location and they never had a leaking source while stored at that location. He would forward the requested information next week.

I also asked him to clarify that the only location they wanted for gauge storage was in New Haven, as it appeared to be misspelled ("New Have") in the December 20, 2011 request. He assured me that it should have been spelled "New Haven."

I thanked him for his time and ended the call.
