Subject: 2012-02-20 Woodlan, March 20 Hydrology Public Meeting

Steve,

As we discussed Friday on the phone, March 20, 2012, works best for the Luminant team. I suggest a morning meeting but we can support either a morning or afternoon get together. We probably need a fairly large room as we will be bringing a good number of people (I do not have a count yet but it could be 10 to 15 people).

Thanks,

Donald R. Woodlan

Thanks Steve. I will start checking the availability of our staff. As you know, we expect to have a large number of attendees.

My quick look is that 3/15 is the last day of the RIC. As best I can tell from the agenda, there will be two technical sessions on the 15th and no major presentations. The new plant technical sessions that day are:

- TH24 - New Reactors Licensed under 10 CFR Part 52: The End Game—Coordinating Rules, Licenses, and Mandatory Hearings
- TH30 - Construction Inspection Program—Transitioning to Execution

I would have attended these but attendance is not essential.

We presently have an internal seismic meeting scheduled for 3/20. I believe that is a different set of personnel so that may not be a conflict as well.

How long do you anticipate the meeting lasting? If not all day, do you anticipate a morning meeting or an afternoon meeting? What level of management do you expect to attend (technical branch chief? Anyone higher?)?

Thanks for proposing these dates,

Donald R. Woodlan

Subject: Hydrology Public Meeting

Don,

We are proposing two dates for the hydrology public meeting. The first date is Thursday March 15, 2012 the second date is Tuesday, March 20, 2012. Please let me know which date works for you and your staff.

Thanks,

Stephen Monarque
