

2-1-12

Dear Nuclear Regulatory Commissioners:

I am writing to oppose the building of the William States Lee III Nuclear Power Plant in Gaffney South Carolina.  
(Document 76 FR 79228).

As a citizen of Western North Carolina, I and my friends find this a very frightening proposition. We are very uncomfortable with the thought of nuclear waste being stored within 60 miles of our homes. We know that it lasts for millions of years & that there is no safe way to store it.

Please do not allow this plant to be constructed. I am in favor of using that money to finance safe, reliable renewables

Sincerely, *Linda Burnett*
