Subject: Nuclear waste disposal...

As Beyond Nuclear board member Judith Johnsrud has long argued, the radioactive waste problem is "trans-solutional," a problem beyond our ability to solve. Nuclear power must be abolished. We must stop making radioactive waste in the first place. As shown by the "[Mountain of Radioactive Waste 70 Years High](#)," prevention is the only real solution for radioactive waste.

"Isn't it OBVIOUS by now? Radioactive substances and nuclear power/weapons are BAD IDEAS all the way from uranium mining to waste transport and disposal. BEFORE IT'S TOO LATE close and dismantle ALL existing nuclear applications and BUILD NO MORE!"
