Re: Response to Letter of January 25, 2012
Control #575693
NRC License No. 12-17951-02

Dear Mr. Tran:

In response to your letter dated January 25, 2012, we are committed to following the nine (9) points outlined in your letter as well as the other provisions provided for in our License Renewal application.

1. The name of our company is Testing Service Corporation.
2. The proposed RSO will have completed training required in Criteria for "Individual (s) Responsible for the Radiation Safety Program and their training and experience - Radiation Safety Officer" in NUREG-1556 Vol 1, Rev. 1 dated November 2001. This training will also apply to any successor to the current RSO.
3. All authorized users will have successfully completed one of the training courses described in "Criteria for Training for Individuals Working in or Frequenting Restricted Areas" in NUREG-1556 Vol 1, Rev. 1 dated November 2001.
4. We will possess or have access to and use a radiation survey meter that meets the Criteria in "Radiation Safety Program - Instruments" in NUREG-1556 Vol 1, Rev. 1, dated November 2001.
5. An inventory not to exceed every six (6) months shall be conducted on all sealed sources and devices received and possessed under the license.
6. We will provide documentation for all unmonitored individuals who are not likely to receive more than 10 percent of allowable limits in 10CFR Part 20, or we will provide acceptable NVLAP approved dosimetry for those individuals.

RECEIVED FEB 07 2012

7. We will have operating and emergency procedures to meet Criteria in "Radiation Safety Program - Operating and Emergency Procedures: in NUREG-1556, Vol 1, Rev. 1 dated November 2001.
8. We will perform leak tests per the intervals approved by the NRC or an Agreement State and specified in the Sealed Source and Device Registration Sheet. These leak tests will be performed using a "leak test kit" supplied by an organization authorized by the NRC or an Agreement State to provide leak test kits. The leak tests will be performed according to the leak test kit instructions.
9. All non-routine maintenance or repair requiring removal of the source rod from the gauge will be sent to the manufacturer or other person authorized by the NRC or an Agreement State.

Respectfully submitted,

TESTING SERVICE CORPORATION

Larry Lockwald
Corporate Radiation Safety Officer
