Subject: on site storage of Nuclear waste

To Whom It May Concern,

I would like to register my alarm, as a U.S. citizen, and resident, at the idea that on site nuclear waste storage can be considered safe.

As a matter of fact, I consider ALL use of nuclear power to pose risks to the planet, and all people, greater than they are worth.

I urge this agency, and all Americans, to support the phase out of all nuclear use, and the phase in of renewable fuel use.

thank you for your attention.

Lew McGregor
